MTECH

Motion Technology and Development LLC

CAPABILITY STATEMENT

Software Licensing & IT Support Coordination

Motion Technology and Development LLC (MTECH) is an SBA-certified 8(a), SDVOSB, VOSB, and HUBZone small business providing focused software licensing and IT support coordination for federal agencies. MTECH's owner personally manages each engagement, providing a single point of accountability, responsive communication, and consistent follow-through. MTECH focuses on clearly defined assignments with manageable workloads, organized documentation, and measurable deliverables.

CORE CAPABILITIES

Software licensing support

Coordinate software requirements, vendor quotations, ordering, and delivery documentation.

License and renewal tracking

Maintain license inventories, subscription dates, renewal schedules, and supporting records.

Vendor support coordination

Track support requests, coordinate vendor responses, and communicate status to the customer.

Implementation documentation

Organize implementation schedules, action items, installation records, and handover materials.

Delivery oversight

Monitor milestones, documentation, and acceptance requirements for defined software and IT support assignments.
